SKILLS

Languages	Java, C, SQL
Frameworks	React, Node.js, Express.js
TechStack	HTML/CSS, Tailwind CSS, REST APIs
Databases	MongoDB
Tools	Git, Github

PROJECTS

Devrooms - Chatroom for developers with AI assistance

[Visit website](#)

MERN Stack, Clerk Authorization

1. Developed a Full-Stack chatroom for developers with realtime collaboration feature.
2. Integrated AI chatbot for assistance and code reviewing on the go.
3. Implemented community creation, Role based access and Invite based joining

Senderrr - Real-time Peer-to-Peer File Sharing Platform

[Visit website](#)

React, TypeScript, WebRTC, Node.js, WebSockets

1. Engineered a direct P2P file sharing web app using WebRTC DataChannels and Node.js WebSockets.
2. Engineered a binary chunk streaming pipeline with client-side SHA-256 integrity validation, and custom in-browser ZIP archiving for batch downloads.
3. Configured STUN NAT traversal and containerized the signaling service with Docker for global connectivity.

SplitLedger - Full-stack expense splitting and debt-tracking app

[Visit website](#)

Java, Spring Boot, PostgreSQL, React, OAuth 2.0/OIDC

1. Architected a full-stack debt-settlement platform with partial settlements and on-demand net-balance aggregation.
2. Secured with Google OIDC, server-side sessions, and CSRF tokens, enforcing strict data isolation.
3. Containerized infrastructure with Docker and shipped a decoupled deployment: React frontend on Vercel, Spring Boot API on Render.

EDUCATION

Kalinga Institute of Industrial Technology

2023-2027

B.Tech in Computer Science

CGPA: 8.12/10.0

Class 12 - CBSE

83.6 %

Class 10 - CBSE

95 %

CERTIFICATIONS

1. AWS Cloud Fundamentals Certification
